PET INSURANCE

You may be surprised to hear that you are more likely to claim on your pet insurance than your car or household policies (Allianz Insurance plc). In fact, in our experience if you don't ever need to claim on your pet insurance you really are very lucky indeed!

Taking out insurance can give you peace of mind that your veterinary care will be covered when you need it most. However, it's important to be aware that not all pet insurance is the same. Some policies limit the amount of time or money that you can claim for so don't just shop around on price alone.

We are happy to answer any questions on the processing of any future claims and we can even introduce you to some of the options available.

- Some life policies guarantee your veterinary fees cover is renewed each year no matter how often you claim (providing you renew your policy each year with no break in cover).
- You should also consider whether you need a policy which does not place exclusions at renewal so that on-going conditions such as eczema continue to be covered year after year.
- It's worth investigating whether your annual premium or excess may increase on account of a claim in the previous year(s).
- While there are plenty of insurers to choose between, some are pet insurance specialists so they understand pets and work closely with vets, charities and breeders. This may also be something you consider important when choosing.
